PROFESSIONAL EXPERIENCE

Paycom, Dallas, TX — February 2025 – Present

Frontend Software Engineer

- Worked on a Team of 8 to grow and maintain a Company Wide UI Library utilized by over **1,000** developers. Assisted modules across the company with front-end issues
- Employed React, HTML and, CSS across UI components to support consistent aesthetic and visual cohesion
- Created Internal Tools to integrate clean code and proper peer review initiatives by connecting guidelines into Gitlab and JIRA through API's with a PHP backend.

Paycom, Dallas, TX — May 2023 – August 2024

Software Developer Intern (May 2024 – August 2024)

- Automated library checkout system for over **7,000** employees by creating a **C# .NET** App, utilizing a **MySQL** Database and creating a **React** front-end with both admin and user capabilities
- Led hackathon team to a **1st** place victory as team captain in company-wide hackathon

Software Developer Intern (May 2023 – August 2023)

- Worked on a Full Stack application utilizing **C# .NET** and **React** that allowed a non-technical user to create **XML** files that would facilitate onboarding of new clientele, leading to **150%** increase in data transition efficiency
- Translated **JSON** objects into an **XML** format that were sent from a **React** SPA into a **C#** backend

NSF IRES Participant, Chalon Sur Saone, France — May 2022 – August 2022

Lab Developer

- Performed virtual reality research at ENSAM university utilizing Unity, C#, and SteamVR technology with a focus on HCI. Participants were able to achieve a **30**% increase in medical knowledge after undergoing the simulation

TECHNICAL SKILLS

Languages: Java, Typescript, JavaScript, HTML, CSS, C++, C#, C, Python, MySQL, PHP
Technologies: React, MVC, .NET, Pytorch, Figma, Jira, Confluence, Unity, Blender, Git, OpenXR and SteamVR

EDUCATION

Oklahoma State University, Stillwater, OK
B.S. Computer Science Honors, B.S. Mathematics Honors — GPA: 3.7

PUBLISHED WORK

- **Disassociation of Visual-proprioception Feedback to Enhance Endotracheal Intubation**
- **Effect of Tactile Affordance During the Design of Extended Reality-Based Training Environments**

PROJECTS

Multimodal Aspect Based Sentiment Analysis Cross-Modal Model, Honors Thesis, CS 4993

- Used Pytorch to create a model that predicted the sentiment of certain aspects in a given text image pair.

3D Simulation of Interactable Knots, Honors Thesis, MATH 4993

- Rendered Knots in a Unity environment with a focus on C# algorithmic efficiency and user experience

LEADERSHIP EXPERIENCE

Association of Computer Machinery, Oklahoma State University, *President* — August 2023 – May 2024

- Hosted meetings at various topics, giving presentations on important technology, such as React and Git
- Hosted and volunteered at Hackathons with **50**+ attendees as well as led OSU's NASA Suits team

Off Campus Student Association, Oklahoma State University, *President* — August 2023 – May 2024
Student Government Association, Oklahoma State University, *Senator* — August 2022 – May 2024

AWARDS

Outstanding Undergraduate Computer Science Researcher Award **2nd Place in 3MT Research Presentation**
Tom Carson Scholarship **Sue Suggs Reel Scholarship** **Academic Excellence Scholarship** **Deans Honor Roll**
Outstanding Undergraduate Computer Science Leadership Award
